

ISD 318'S WEB PAGE PERMISSION FORM

This form must be on file prior to using a photo(s)

ISD 318's Web site (www.isd318.org) was established to provide a learning experience for students and staff, and an opportunity to communicate with parents, the community and internet users about the learning activities of ISD 318's schools.

The site may include a variety of student works and activity photos. The majority of the photos will be group photos. When students are identified in a photo, it will be by first name only. We are looking forward to promoting our school in this way.

_____ has my permission to use the names and photographs of
