Digital Citizenship

**BEING A
RESPONSIBLE
DIGITAL CITIZEN**

Students, Parents, and Teachers must be able to:

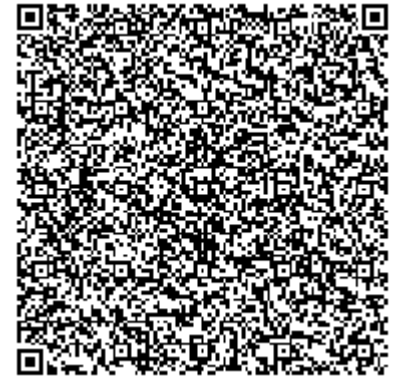

- Utilize available technology for school and employment and help peers to do the same (Digital Access).
- Be an informed consumer when buying or selling items on commercial websites and auction sites as well as subscribing to and purchasing media when using applications like iTunes (Digital Commerce).
- Use acceptable and appropriate methods to communicate electronically with peers, teachers, and employers (Digital Communication).
- Know when and how to use digital technology (Digital Literacy).
- Understand the standard of conduct expected by other digital technology users (Digital Etiquette).

The Grand Rapids Area Learning Center's Guide to Digital Citizenship

This brochure contains the responsible use guidelines of the digital resources at the Grand Rapids Area Learning Center.

All students of Independent School District 318 must read, understand, and sign the Acceptable Use of Electronic Technologies form before registering for classes.

With new technologies, students and teachers are looking for new ways to learn and teach. We have the opportunity to create a new age of education...

Students, Parents, and Teachers must be able to:

- Protect private information and give credit to others for their ideas (Digital Law).
- Understand, share, and help enforce the privileges and freedoms extended to all digital technology users (Digital Rights and Responsibilities).
- Create a balance between screen time and the time spent doing other activities (Digital Health and Wellness).
- Protect themselves and others from the harm that can occur in a digital world (Digital Security).
