When There Is a COVID-19 Case In a School

Communicate to all families in a school when there is a positive case (staff or student).

Conduct extra cleaning in areas where the infected person spent time.

Continue to provide important health information to families.

**ISD
318
WILL**

Work with Itasca County Public Health and MDH Regional Support Teams to identify potential contacts.

Work with public health officials to determine if the status of the school must change.

Monitor symptoms of students and staff.

Send students and staff home when they are ill at school.

**ISD 318
WILL
NOT**

Administer COVID-19 tests in schools.

Provide personally identifiable information of an infected person (name, grade level, or class info).

Immediately close schools for one positive case.
