

Try An Exciting Engineering Activity

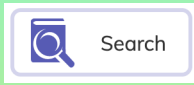

Here's what to do:

Step 1:

Log into myON by following this link: <https://www.myon.com/school/grandrapidssummerreading> and using the username: myon and password: books.

Step 2:

Click "Search" at the top and type in: Exciting Engineering Activities.

Step 3:

Have your child read the book to themselves or click the play button to have it read to them.

Step 4:

Tell them to choose one of the activities from the book to do. They get to be the engineer! They may need your help getting some materials. Then, complete the activity together!

Step 5:

Have them get a piece of paper and something to write with. Ask them to write the steps they completed during their activity, what happened, and what observations they made!

Summer Reading Challenge Reminder:

It's not too late to join the Summer Reading Challenge if you haven't yet! Follow this link:

<https://www.isd318.org/summerreading>

to learn more, download a reading log that works for you, and learn about myON - a great online reading option!
