

Student Observation

Student Name:	Date:
Setting:	Time Start:
Observer:	Time Stop:

Time Sampling of Behavior: At the end of each 30 second interval, observe the child's behavior for approximately 5 seconds; then place a checkmark in the time column next to each category of behavior that occurred during that interval. Write a brief description of the behavior observed in each interval in the margin at the right. To determine percentages, divide the number of marks in each row by 30.

Minutes	Approp Response: On Task	Inattention	Inapprop Movement	Inapprop Vocaliz	Aggression, Physical/ Verbal	Other	Description of the Behavior Observed
