## **SEESAW**

For the 2021-2022 school year, we will be utilizing an amazing app called SeeSaw. Seesaw is a simple way for teachers and students to record and share what's happening in the classroom. Seesaw gives students a place to document their learning, be creative, and learn how to use technology. Each student gets their own journal and will add things to it, like photos, videos, drawings, or notes.

When there are new Seesaw posts, families can be notified via app notification, email, or text message.

Parents are only notified about their own child's work or group work, and all data is safe and secure.

To download the app, go to this page and scroll down to the bottom:

<https://web.seesaw.me/parents/> If you had an account last year you can use the same login. We will update your child's class and information and notify you.

Class access will "turn on" after the fall classroom placement letters come out.
