## HEALTH NEWS

We understand families may have questions and concerns about the coronavirus disease – now called COVID-19. We want our families to know that we are in communication with the Minnesota Department of Health (MDH) and the Minnesota Department of Education (MDE) about the situation. Currently, there are no known cases in Minnesota. But, we are monitoring the situation with the guidance of MDE and MDH. The best way to prevent the spread of the disease is through good hygiene - washing your hands frequently, avoid touching your face, avoid close contact with those who are sick, covering your cough by coughing into your elbow or a tissue, and staying home when sick.
