II. GENERAL STATEMENT OF POLICY

The School Board recognizes that selection of instructional materials is a vital component of the school district’s curriculum. The School Board also recognizes that it has the authority to make final decisions on selection of all instructional materials.

III. RESPONSIBILITY OF SELECTION

A. While the School Board retains its authority to make final decisions on the selection of instructional materials, the School Board recognizes the expertise of the professional staff and the vital need of such staff to be primarily involved in the recommendation of instructional materials. Accordingly, the School Board delegates to the curriculum director the responsibility to direct the professional staff in formulating recommendations to the School Board on instructional materials.

B. In reviewing instructional materials during the selection process, the professional staff shall select materials which:

1. support the goals and objectives of the education programs;
2. consider the needs, age, and maturity of students;
3. foster respect and appreciation for cultural diversity and varied opinion;
4. fit within the constraints of the school district budget;
5. are in the English language. Another language may be used, pursuant to Minn. Stat. § 124D.61;
6. permit grade-level instruction for students to read and study America’s founding documents, including documents that contributed to the foundation or maintenance of America’s representative form of limited government, the Bill of Rights, our free-market economic system, and patriotism; and
7. do not censor or restrain instruction in American or Minnesota state history or heritage based on religious references in original source documents, writings, speeches, proclamations, or records.
606 INSTRUCTIONAL MATERIALS

C. The superintendent shall be responsible for developing procedures and guidelines to establish an orderly process for the review and recommendation of instructional materials by the professional staff. Such procedures and guidelines shall provide opportunity for input and consideration of the views of students, parents, and other interested members of the school district community. This procedure shall be coordinated with the school district’s curriculum development effort and may utilize advisory committees.

IV. SELECTION OF INSTRUCTIONAL MATERIALS

A. The curriculum director shall be responsible for keeping the School Board informed of progress on the part of staff and others involved in the instructional materials review and selection process.

B. The curriculum director shall present a recommendation to the School Board on the selection of instructional materials after completion of the review process as outlined in this policy.

C. In order to provide a current, highly-usable collection of materials in our schools, staff shall provide for constant and continuing renewal of the collections, not only by the addition of up-to-date materials, but by the judicious elimination of materials which no longer meet district needs.

D. Gift materials will be evaluated and selected or rejected by the same standards which apply to the acquisition of new materials. Gift materials selected for school use or to be included in school collections will be subject to the same criteria for judging up-to-dateness and use as all district-owned materials.

E. Those selecting print or non-print materials should carefully and thoughtfully consider community mores, including careful consideration of material which may appear to be blasphemous or anti religious. Learning need not and should not be presented in vulgar and unacceptable language format. However a frank treatment of topics and/or inclusion of profanity should not automatically rule out material. It does necessitate a searching evaluation of literary merits or objectiveness of the material relative to truth and curriculum objectives. Suitability to the age level must always be considered.

F. The teacher shall exercise careful consideration in determining whether the instructional material is controversial and warrants notification to parents. If so, the teacher must complete Addendum III for approval by the principal. Once Addendum III is approved, the teacher must notify parents/guardians about the controversial material and time of presentation to the students.
G. Films and videos not owned by ISD 318 and outside speakers invited to ISD 318 schools may be used, following approval by the building principal. Teachers must complete an Out of School District Resource/film Request form.

V. TEACHING ABOUT CONTROVERSIAL ISSUES

Controversial issues are defined as those problems, subjects or questions about which there are major differences of opinion, for which there are no easy answers, and discussion of which generally create strong feelings among people.

Controversial issues, however, provide stimulation to learning by creating intellectual excitement and are, thus, an important part of the classroom environment. Free inquiry in a democratic society requires that controversial issues arising in the classroom be handled as a regular aspect of instruction and learning in such a way as to not inhibit the dignity, the personality, or the intellectual integrity of either the teacher or the students.

The handling of a controversial issue in school shall be free from the assumption that there is one correct answer which shall emerge from the discussion and be taught authoritatively to the student.

Indoctrination shall not be the purpose; rather, the purpose shall be to have the student see as fully as possible all sides of the question.

The decision about whether a controversial issue shall become a matter for school study shall be based on such considerations as the timeliness of the question, the maturity of the students, the needs of the students and the purpose of the school.

No individual or group may claim the right to present arguments directly to students in school. Such a “right” will make the schools a battle ground for dozens of kinds of controversial issues. Citizens have the right to know that controversial issues are being presented fairly and to protest to the Board if convinced that they are not.

Subject areas of content material shall be taught in accordance with the requirements of the state statutes.

To implement the Board’s policy dealing with this topic the following administrative and teaching regulations are to be observed:

Principals must remind teachers that we do not teach controversial issues but rather provide opportunities for their study.

Teachers must do the following:
606 INSTRUCTIONAL MATERIALS

1. Deal with controversial topics as impartially and objectively as possible;

2. Handle all such topics in a manner suited to the range of knowledge, maturity and competence of the students;

3. Have teaching materials readily available dealing with all possible aspects of the topics;

4. Take up only issues that are current and real. Find up-to-date teaching materials in the current press and periodical literature. The best sources of reliable information will come from those places plus court decision and legal opinions.

5. Do not expect or require that the class reach an agreement.

VI. RECONSIDERATION OF INSTRUCTIONAL MATERIALS

A. The School Board recognized the right of those persons in the schools and the community to request consideration of instructional materials.

B. The differences of opinion relating to certain areas of the instruction program. Interested persons may request an opportunity to review materials and submit a request for reconsideration of the use of certain instructional materials.

C. The curriculum director shall be responsible for the development of guidelines and procedures to identify the steps to be followed to seek reconsideration of instructional materials.

D. The superintendent shall present a procedure to the School Board for review and approval regarding reconsideration of instructional materials. When approved by the School Board, such procedure shall be an addendum to this policy.

E. Controversial Speakers/Programs Procedure

The Board, in an effort to uphold the students' freedom to learn while also recognizing obligations which the exercise of this freedom entails, establishes the following guidelines regarding controversial speakers/programs.

a. The teacher/sponsor will send home a written notice via the student informing parents when outside speakers will be present in class speaking on controversial topics.
Topics present in American Society which, by their nature, lead to a vigorous clash of opposing viewpoints on the part of the public are considered controversial. Examples of controversial issues are: abortion, family life education, politics, religion, and alternative life styles. These listed examples are not intended to be all inclusive but are representative of controversial issues. The teacher shall exercise careful consideration in determining whether the topic or presenter is sufficiently controversial to warrant notification to parents.

1. Students not wishing to hear an outside speaker need not be in class during the presentation. Students and/or parents should make such requests in writing to the principal. Appropriate assignments will be made by the teacher in lieu of class attendance.

2. The teacher/sponsor and the building principal are expected to exercise judgment and to have knowledge about the topic and the proposed resource persons.

3. The ideas presented and the resource person invited to present will have demonstrable relation to the curricular or co-curricular activity in which the participating students are involved.

4. Prior to his/her appearance or participation, the resource person will be given in writing and will agree to abide by the following Board regulations:

   a. Profanity, vulgarity, and lewd comments are prohibited.

   b. The teacher/sponsor responsible for inviting the resource person or any member of the school administration, has the right and duty to interrupt or suspend any proceedings if the conduct of the resource person is judged to be in poor taste or endangering to the health and safety of students and staff.
E. RECONSIDERATION OF INSTRUCTIONAL MATERIALS PROCESS

Should a reconsideration request be made, the following procedure will be followed:

1. Invite the citizen(s) to submit his/her request in writing to the building principal completing the form "Request for Reconsideration of Instructional Materials." See Addendum #1. The citizen(s) is to be as specific as possible when completing the form;

2. Upon receipt of the reconsideration request, the building principal will inform the curriculum director and staff member(s) involved within five (5) working days;

3. Within five (5) working days, the staff member(s) involved will complete and submit the form "Faculty Member's Statement on Challenged Instructional Materials" to the building principal. See Addendum #2;

4. The challenged material will be referred to the appropriate department for discussion. The department will render a decision in writing within five (5) working days concerning the material to the curriculum director.

5. The original copy of the reconsideration request and the staff member's statement will be filed with the building principal with copies provided to the curriculum director.

6. Within five (5) working days, a Reconsideration Committee will be selected or appointed by the building principal and curriculum director. The Reconsideration Committee chairperson will be the building principal of the building involved.

   a. The staff member(s) or individual(s) involved with the reconsidered material will not be member(s) of the committee.

   b. The committee will consist of:

      1.) Three citizens
      2.) Two Classroom teachers from the department or grade level involved
      3.) Curriculum Director

7. The Reconsideration Committee will:

   a. Review the challenged material;
b. Check general acceptance of the material by reading reviews;

c. Meet to discuss material and to prepare a report;

d. The report will include one of the following recommendations:

1.) Material will be retained.

2.) Material will not be required reading but will be available in the media center.

3.) The material will be retained on a restricted basis and used only by appropriate students.

4.) The material will be withdrawn from use.

e. The original report will be filed in the office of the Superintendent of Schools with copies to the curriculum director and those involved with the material in question - - building principal, staff member, citizen(s);

8. Appeals of this decision must be made within five (5) working days to the Superintendent of Schools. The Superintendent shall, within five (5) working days after receipt of the appeal, notify the citizen(s) of his/her decision in writing. Appeal to the Board of Education must be made in five (5) working days after receipt of the superintendent's decision. The decision of the School Board is final unless appealed to the court.

9. Reconsideration Committee will disband upon completion of case.
