Adopted with revisions from MSBA Policy 613 Orig. 1997, Rev. 2010
II. GENERAL STATEMENT OF POLICY

The policy of the school district is that all students entering grade 8 in the 2012-2013 school year and later must demonstrate, as determined by the school district, their satisfactory completion of the credit requirements and their understanding of academic standards. The school district must adopt graduation requirements that meet or exceed state graduation requirements established in law or rule.

III. DEFINITIONS

A. “Academic standard” means: (1) a statewide adopted expectation for student learning in the content areas of language arts, mathematics, science, social studies, physical education, or the arts, or (2) a locally adopted expectation for student learning in health, the arts, career and technical education, or world languages.

B. “Credit” means a student’s successful completion of an academic year of study or a student’s mastery of the applicable subject matter, as determined by the school district.

C. “Section 504 Accommodation” means the defined appropriate accommodations or modifications that must be made in the school environment to address the needs of an individual student with disabilities.

D. “Individualized Education Program” or “IEP” means a written statement developed for a student eligible by law for special education and services.

E. “English language learners” or “ELL” student means an individual whose first language is not English and whose test performance may be negatively impacted by lack of English language proficiency.

F. “GRAD” means the graduation-required assessment for diploma that measures the reading, writing, and mathematics proficiency of high school students.

IV. DISTRICT ASSESSMENT COORDINATOR

Rochelle VanDenHeuvel, Assistant Superintendent, shall be named the District Assessment Coordinator. Said person shall be in charge of all test procedures and shall bring recommendations to the school board annually for approval.
V. GRADUATION ASSESSMENT REQUIREMENTS

For students enrolled in grade 8 in the 2012-2013 school year and later, students’ state graduation requirements, based on a longitudinal, systematic approach to student education and career planning, assessment, instructional support, and evaluation, include the following:

A. standards encouragement to participate on a nationally normed college entrance exam in grade 11 or grade 12;

B. achievement and career and college readiness tests in mathematics, reading, and writing. The tests must have a continuum of empirically derived, clearly defined benchmarks focused on students’ attainment of knowledge and skills so that students, their parents, and teachers know how well students must perform to have a reasonable chance to succeed in a career or college without the need for postsecondary remediation. In addition, the tests must ensure that the foundational knowledge and skills for students’ successful performance in postsecondary employment or education and articulated series of possible targeted interventions are clearly identified and satisfy Minnesota’s postsecondary admission requirements. To the extent available, the tests should:

1. monitor students’ continuous development of and growth in requisite knowledge and skills; analyze students’ progress and performance levels, identifying students’ academic strengths and diagnosing areas where students require curriculum or instructional adjustments, targeted interventions, or remediation; and

2. based on analysis of students’ progress and performance data, determine students’ learning and instructional needs and the instructional tools and best practices that support academic rigor for the student; and

C. consistent with this paragraph and Minn. Stat. § 120B.125, age-appropriate exploration and planning activities and career assessments to encourage students to identify personally relevant career interests and aptitudes and help students and their families develop a regularly reexamined transition plan for postsecondary education or employment without need for postsecondary remediation.

D. Based on appropriate state guidelines, students with an IEP may satisfy state graduation requirements by achieving an individual score on the state-identified alternative assessments.

E. Students meeting the state graduation requirements under this section must
receive targeted, relevant, academically rigorous, and resourced instruction which may include a targeted instruction and intervention plan focused on improving the student’s knowledge and skills in core subjects so that the student has a reasonable chance to succeed in a career or college without need for postsecondary remediation.

F. Students meeting the state graduation requirements under this section and who are students in grade 11 or 12 and who are identified as academically ready for a career or college must be actively encouraged by the school district to participate in courses and programs awarding college credit to high school students. Students are not required to achieve a specified score or level of proficiency on an assessment under this subdivision to graduate from high school.

G. A student’s progress toward career and college readiness must be recorded on the student’s high school transcript.

B. Post-Secondary Enrollment

1. Eleventh and twelfth grade students may apply to enroll in Post-Secondary Enrollment Options (PSEO) and other advanced enrichment programs. Qualifying credits granted to a student through a PSEO course or program will be counted toward the graduation and credit requirements of the state academic standards. Interested students must fill out an application form and submit it to the counseling office by May 30 for enrollment the following school year. Institutions of higher education will have their own criteria and deadlines which must be met. Itasca Community College requires a 3.2 GPA for juniors and a 3.0 for seniors. Students must meet minimum standards in the placement test. Weighted grades will not be awarded to any PSEO courses. The application form must be signed by the student, his/her parent or guardian, and counselor.

2. ISD 318 students who participate in off-campus PSEO coursework may utilize ISD 318 educational facilities and equipment during regular school hours in order to work on class assignments. Students who wish to utilize ISD 318 facilities in this capacity must check in at the main office and report directly to the school library, or other area designated by building administration. Students must remain in the designated location while working on their coursework, and will be under the supervision of the building staff.
VI. GRADUATION CREDIT REQUIREMENTS

Students beginning 8th grade in the 2012-2013 school year and later must successfully complete, as determined by the school district, the following high school level credits for graduation:

A. Four credits of language arts;

B. Three credits of mathematics, including an algebra II credit or its equivalent, sufficient to satisfy all of the academic standards in mathematics.

C. An algebra I credit by the end of 8th grade sufficient to satisfy all of the 8th grade standards in mathematics;

D. Three credits of science, including at least: (a) one credit of biology; (b) one credit of chemistry or physics; and one elective credit of science. The combination of credits must be sufficient to satisfy (i) all of the academic standards in either chemistry or physics and (ii) all other academic standards in science;

E. Three and one-half credits of social studies, encompassing at least United States history, geography, government and citizenship, world history, and economics sufficient to satisfy all of the academic standards in social studies;

F. One credit in the arts sufficient to satisfy all of the state or local academic standards in the arts; and

G. A minimum of seven elective credits including .5 of Financial Literacy;

H. Credit equivalencies

1. A one-half credit of economics taught in a school’s agriculture education or business department may fulfill a one-half credit in social studies under Paragraph E., above, if the credit is sufficient to satisfy all of the academic standards in economics.

2. An agriculture science or career and technical education credit may fulfill the elective science credit required under Paragraph D., above, if the credit meets the state physical science, life science, earth and space science, chemistry, or physics academic standards or a combination of these academic standards as approved by the
613 GRADUATION REQUIREMENTS

school district. An agriculture or career and technical education credit may fulfill the credit in chemistry or physics required under Paragraph D., above, if the credit meets the state chemistry or physics academic standards as approved by the school district. A student must satisfy either all of the chemistry or physics academic standards prior to graduation. An agriculture science or career and technical education credit may not fulfill the required biology credit under Paragraph D., above.

3. A career and technical education credit may fulfill a mathematics or arts credit requirement if the credit meets the appropriate arts or math state academic standards requirement under Paragraph B. or Paragraph F., above.

4. A computer science credit may fulfill a mathematics credit requirement under Paragraph B., above, if the credit meets state academic standards in mathematics.

I. At the principal’s discretion in consultation with a student’s counselor, standard level credit requirements may be replaced by more rigorous International Baccalaureate classes provided the student’s coursework meets state academic requirements.

VII. GRADUATION STANDARDS REQUIREMENTS

A. All students must demonstrate their understanding of the following academic standards:

1. School District Standards, Health (K-12);

2. School District Standards, Career and Technical Education (K-12); and

B. Academic standards in health, world languages, and career and technical education will be reviewed on a periodic basis. A school district must use the current world languages standards developed by the American Council on the Teaching of Foreign Languages.

C. All students must satisfactorily complete the following required Graduation Standards in accordance with the standards developed by the Minnesota Department of Education (MDE):

1. Minnesota Academic Standards, Language Arts K-12;
613 GRADUATION REQUIREMENTS

2. Minnesota Academic Standards, Mathematics K-12;
3. Minnesota Academic Standards, Science K-12;
4. Minnesota Academic Standards, Social Studies K-12; and

D. State standards in the Arts K-12 are available, or school districts may choose to develop their own standards.

E. The academic standards for language arts, mathematics, and science apply to all students except the very few students with extreme cognitive or physical impairments for whom an IEP team has determined that the required academic standards are inappropriate. An IEP team that makes this determination must establish alternative standards.

ISD 318 GRADUATION REQUIREMENTS

1. Graduation or promotion exercises are not to be held in any school for any grade except grade 12.

2. In order to qualify for a high school diploma, a student must successfully complete his/her required courses to earn a minimum of 23 credits in grades 9, 10, 11, and 12 at the Grand Rapids High School, Bigfork High School and/or Grand Rapids Area Learning Center.

3. Transfer student’s credits will be evaluated on enrollment.

4. Requirement credits at Grand Rapids High School, Bigfork High School and Grand Rapids Area Learning Center to be earned in grades 9 - 12:

Graduation Requirements

State requirements:
  Science - 3 credits
  Language Arts - 4 credits
  Mathematics - 3 credits
  Social Studies - 3.5 credits
  Art (visual arts, music, theater, dance or media arts) – 1 credit
613 GRADUATION REQUIREMENTS

**ISD 318 requirements:**
- Physical Education - 1 credit
- Health - .5 credit

**Electives** - 7 credits (must include .5 Financial Literacy)

**TOTAL:** 23 credits

F. A student’s scholastic rank (Grade Point Average) will be based on accumulation of final grades in the courses he/she takes.

G. **Weighted Grading:** It is the policy of ISD 318 that IB courses will be weighted using the following formula: Standard grade point + an additional .25 of a grade point

**VIII. EARLY GRADUATION**

Students may be considered for early graduation, as provided for within Minn. Stat. § 120B.07, upon meeting the following conditions:

A. All course or standards and credit requirements must be met;

B. The principal or designee shall conduct an interview with the student and parent or guardian, familiarize the parties with opportunities available in post-secondary education, and arrive at a timely decision; and

C. The principal’s decision shall be in writing and may be subject to review by the superintendent and school board.
